

How to select the Correct Size:

Steps to a proper fit are:

Step 1) Taking the correct measurements.

- A leotard should be worn when taking measurements, not street clothes.
- It is very important that you take chest, waist, hip and girth measurements. Please use the convenient worksheet enclosed in the pricelist to keep a record of all measurements.
- Do not use last year's leotards or Aerials garments as a size reference, they do not reflect the correct size your athlete will need this year.

Step 2) Determining how you want the leotard to fit.

- If you want the leotard to have a sleek fit with minimal wrinkles, you will want to order the closest size that corresponds to your athlete's measurements on our size charts. It is our experience that when the chest and hip measurements do not correspond with a particular size, the girth measurement should be used as the deciding factor.
- Please note styles with layered fabrics will have a tighter fit.

- A) GIRTH: Measure from the center of one shoulder, down the front through crotch and up the back to starting point.
- B) CHEST: With arms relaxed down at sides, measure around the fullest part of chest, keeping tape measure parallel to the floor.
- C) WAIST: Measure around natural waistline, the narrowest part of the upper body (not over shirt or pants).
- D) HIPS: Measure around fullest part of the lower body, keeping tape straight and parallel to the floor.
- E) INSEAM: Measure inside of leg, from the crotch to 2 inches below the ankle bone.

Sizing Sets

We highly recommend ordering one of our Sizing Sets to match your choice of fabric when determining the most desirable fit. It is very important to note the different fabric stretch characteristics between our velvet, novelty, and mesh over novelty.

Let our team help your team, call customer service to request your sizing set today! 1-800-825-7428.
